EDUCATION

Toronto Metropolitan University (Formerly Ryerson University)

April 2026

Bachelor of Science (Honours) - Computer Science (GPA: 3.97)

Toronto, ON

Relevant Coursework: Data Structures, Algorithms, Operating Systems, Computer Networks, Database Systems, Machine Learning, Artificial Intelligence, Computer Security, Software Engineering, Probability & Statistics

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C, C++, C#, SQL, HTML/CSS, Bash

Frameworks & Libraries: React.js, Node.js, Express.js, Django, Flask, TensorFlow, PyTorch, scikit-learn, pandas

Developer Tools & Platforms: Git, GitHub, Docker, Linux/Unix, PostgreSQL, MySQL, MongoDB, REST APIs, PowerBI

Cloud, DevOps & Tools: AWS (EC2, S3), CI/CD (GitHub Actions), AutoCAD, Microsoft Office (Excel, PowerPoint, Word)

Soft Skills: Problem Solving, Communication, Team Collaboration, Adaptability, Time Management, Leadership

EXPERIENCE

IT Infrastructure Operations Co-op Student

January 2025 – December 2025

Toronto Hydro-Electric System Ltd.

Toronto, ON

- Provided technical support and maintenance for **50+ users** across **Citrix servers, Hyper-V, and VMware environments**, supporting production, test, and development systems while improving uptime and stability.
- Performed **20+ server builds, configurations, and decommissions** while following **change control** requirements and **security protocols** to maintain a stable and compliant enterprise environment.
- Managed **20+ server blades** and hardware assets using **VMware vSphere**, performing diagnostics, assisting with capacity planning, and coordinating with vendors for timely issue resolution.
- Administered **Avamar backup and recovery systems**, monitored backup success rates, restored critical data, and supported **business continuity** and **disaster recovery** readiness across enterprise systems.
- Supported **SQL databases** through **performance tuning, user access management, and backup/restore operations**, helping maintain database integrity, reliability, and efficiency.
- Prepared **KPI reports** and maintained **bin management records** to track operational metrics, support service performance analysis, and ensure compliance with **SLAs**.

Lead Data Engineer

January 2024 – October 2024

Flower Shop Projects

Toronto, ON

- **Led a team of 2** on a competitor analysis project using **Python** and **PostgreSQL**, identifying market opportunities and securing **15** new high-value clients, including Tokyo Smoke, Northern Helm, and JSupplyCo.
- Analyzed sales and market trends using **Python, pandas, sklearn, matplotlib, and Power BI**, increasing client acquisition by **30%** and sales by **20%** within **4 months**.
- Developed interactive **PowerBI** dashboards backed by **PostgreSQL**, improving data retrieval, reporting speed, and decision-making efficiency by **30%**.

Head Advanced Mathematics Teacher

August 2022 – Present

Mentor's Academy

Toronto, ON

- Teach and develop curriculum for advanced mathematics courses, including **calculus, linear algebra, and differential equations**, strengthening students' analytical and quantitative reasoning skills.
- Lead programming classes in **Python, Java, and C++**, emphasizing **algorithmic thinking**, debugging, and problem-solving skills through hands-on coding exercises.
- Provide one-on-one tutoring and mentorship to students, adapting lesson plans to different learning needs and helping improve academic performance and technical confidence.

PROJECTS

Mentor's Academy Attendance Tracker (Full-Stack Application) | HTML/CSS, React.js, MySQL

- Developed an attendance management platform using **React.js, HTML, CSS, and MySQL** to efficiently track student participation and attendance records.
- Designed user-friendly interfaces for managing student profiles and class schedules, ensuring real-time data integration and seamless database interaction.
- Enhanced the platform by incorporating task management, payment tracking, and student progress monitoring.
